Windows EC2 SDP Campaign 1 — One-Month Campaign Overview

Windows Infrastructure Awareness & Cost Challenges (KSA/MENA Market)

1. Campaign Objectives

Primary Goal

Position Cloudwrxs as the trusted Windows Server modernisation and Windows-to-AWS migration partner in KSA/MENA, using AWS Software Discount Program (SDP) savings as the opening value proposition.

Campaign Window

April 2026 — one-month campaign wave.

Objectives

- Generate high-value Windows Server migration and modernisation leads.
- Promote the Free Windows Estate Assessment as the primary CTA.
- Establish Cloudwrxs' authority in Windows infrastructure, licensing optimisation, HA/DR, and AWS migration.
- Create qualified conversations for Windows Estate Assessment workshops.

2. Target Audiences & Core Messaging

CFO / Finance Director

- Reduce Windows Server licensing and infrastructure costs by 35-60% through AWS SDP and right-sizing.
- Convert capex-heavy Windows refresh cycles into predictable opex.
- Improve financial visibility into Windows workload usage and cost drivers.

CTO / Head of IT

- Modernise Windows Server environments for scale, performance, and resilience on AWS EC2.
- Use AWS SDP to reduce the licensing burden during cloud transformation.
- Strengthen Windows HA/DR and security posture with AWS-native services.

IT Infrastructure Manager

- Simplify Windows operations with automation, monitoring, patching, backups, and DR.
- Reduce manual Windows maintenance and improve operational visibility.
- Improve stability for Windows workloads through AWS architecture patterns.

3. Touchpoints & Cadence

- Week 1: Landing pages, segmentation, and soft outreach.
- Email 1 (Week 2): Windows infrastructure challenges + Free Windows Estate Assessment.
- WhatsApp 1: 48 hours after Email 1.
- Stage 1 Calls: 48-72 hours after Email 1.
- Email 2 (Week 3): Windows SDP savings, performance, and architecture deep dive.
- WhatsApp 2: 48 hours after Email 2.
- Stage 2 Calls: After Email 2.
- Email 3 (Week 4): Windows migration case study + ROI proof.
- WhatsApp 3: 48 hours after Email 3.
- Stage 3 Calls: Convert interest into Windows Estate Assessment workshops.

4. Email Sequence

Email 1 — Introduction: Modernising Windows Server on AWS

Subject: Is Your Windows Infrastructure Ready for the Next Decade?

Introduce Cloudwrxs, highlight rising Windows licensing and infrastructure challenges, and invite the recipient to a complimentary Windows Estate Assessment Workshop.

Email 2 — Windows Technical & Financial Deep Dive

Subject: Architecting Windows for Performance, Scale, and Cost Efficiency

Explain how AWS SDP, right-sizing, HA/DR automation, and AWS-native monitoring can reduce cost while improving performance and resilience.

Email 3 — Windows Success Story

Subject: How a Regional Enterprise Cut Windows Costs and Improved Reliability

Use a short case study to show cost reduction, improved uptime, faster recovery, and reduced operational load. Close with a direct invitation to book the Windows Estate Assessment.

5. WhatsApp Messages

Message 1

Hi [Name], I sent a note about Windows Server modernisation on AWS. We are offering a complimentary Windows Estate Assessment to identify cost, performance, and resilience opportunities. Happy to share a quick summary.

Message 2

Hello [Name], following up on Windows SDP savings and infrastructure optimisation. If licensing cost or Windows stability is under review, Cloudwrxs can assess the current estate and share practical next steps.

Message 3

Salam [Name], many organisations are reducing Windows infrastructure cost and improving uptime by moving Windows workloads to AWS with SDP. Would a short Windows Estate Assessment be useful for your team?

6. Landing Pages

Persona	Landing Page	CTA
CTO / Head of IT	Windows Infrastructure Modernisation	Book Windows Estate Assessment
CFO / Finance Director	Windows TCO & Cost Optimisation	Schedule Windows TCO Review
IT Infrastructure Manager	Windows Operations Excellence	Request Windows Operations Workshop

7. Call Scripts

Stage 1 Call — After Email 1

Introduce Cloudwrxs, confirm whether Windows infrastructure optimisation or migration is relevant, and offer the free Windows Estate Assessment.

Stage 2 Call — After Email 2

Discuss Windows licensing cost, performance, HA/DR, and architecture challenges. Position AWS SDP and right-sizing as immediate analysis areas.

Stage 3 Call — After Email 3

Reference the case study and convert interest into a scheduled Windows Estate Assessment workshop.

8. KPI Targets

- Email open rate: 32%
- Click-through rate: 20%
- Windows Estate Assessment workshops booked: 10
- Windows-qualified opportunities created: 4-6
